

SUSTAINABILITY CASE STUDIES

FIH Academy World Camps

FIH Academy World Camps

Objectives

1. Secure equal access to hockey and resources
2. Set up mechanisms to encourage the practice of sport by all girls and coaching opportunities for women

Description

- Women are less likely than men to take part in sport. FIH Academy in collaboration with partners, associates, sponsors and its own team of experienced FIH educators and high performance coaches has planned and executed an exciting programme of hockey activities lined up for players, coaches and the wider hockey workforce.
- Launched at the #HockeyInvites Year of the Youth it aimed in particular to inspire young people to achieve as highly as they can within the sport. This initiative is a great example of how collaboration between different organisations and individuals can make for a really great hockey proposition.

Results

- This year, World Camps (in Amsterdam, USA and England) have given equal opportunity to girls and boys to practise hockey.
