My homeland, Poland, as many of FIH member countries, does not belong to the world's top hockey players. By applying to the FIH board, I want to represent the environment of countries that are currently developing this beautiful sport.

My main goals are:

- Increasing the level of hockey's existence in traditional and digital media,
- Creating a media offer for young people who spend a few minutes a day watching sports,
- Stabilize, through the creation of digital tools, rights of publicity of team players,

- Creating a calendar of hockey events at the club, national and continental level available to all members of hockey society.
- Developing partnership programs at the club, federation and continent level.

## Present and Past Activities in national sport (NA/NOC)

For the past 4 years, after accepting the position of PHA Secretary General, I have focused on the development of hockey at the grassroots level. The programs that I have initiated, which involve children aged 7-14, show incredible results by the increase in the number of players despite the pandemic. Not forgetting about adult players, the created system of competition, streaming, live results (livescoring) or the ongoing work on creating a fantasy league, that is based on blockchains and NFT technologies, improved the recognition of hockey in my country and paved the way to gain the first sponsors, such as one of the biggest electricity provider in the country, in the history of hockey in Poland.

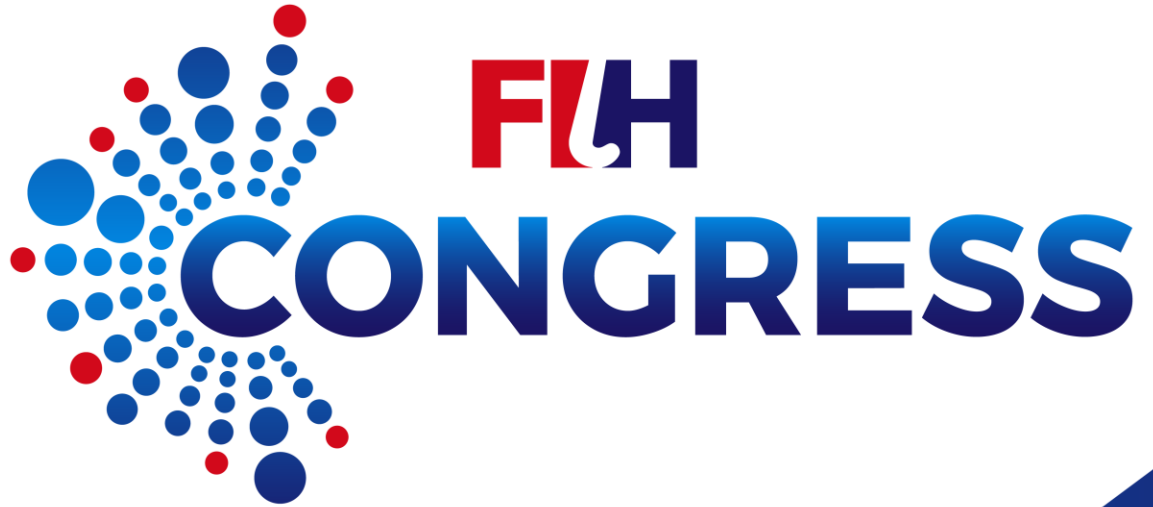

### Present activities

- Since 2019 I am the Secretary General of PHA
- Since 2021 I am a Member of the Board PHA
- Since 2022, I am a member of the board of the district hockey association

## Motivation for candidature and personal message

I have been deeply involved in hockey throughout my life as a player, a hockey parent and national administrator. I love this sport.

I believe hockey is at a critical juncture in which it needs to transform itself to grow sustainably, embrace professionalism, attract the right supporting partners, and retain its influence and relevance in the wider international sporting arena.

With my proven commercial, organisational and governance expertise, I believe I can make a meaningful contribution as we strive to transform our sport, sustainably and equitably. I am also a strong promoter of organisational transparency and accountability as key principles of best-practice governance.

Having also previously governed, chaired and led the transformation a smaller hockey nation to one that punches above its weight, I understand the importance of 'doing more with less' and respecting the needs of all stakeholders.
